

NEW DENSO SPARK PLUGS

DENSO is a leading pioneer in automotive technology, responsible for several world firsts, particularly in the field of spark plug: world's first U groove electrode, world's first iridium electrode, world's first 360° laser welding for centre electrode, producing the most reliable weld, world's first Super Ignition Plug, world's smallest diameter electrodes at 0.4mm.

The Denso Spark Plug share is increasing in the market and now we are about to release new Spark Plugs to endorse this position. 7 new Automotive Spark Plugs are added to the range and cover an extensive list of makes and applications including Porsche, Volkswagen, Honda, Toyota, Daihatsu. The new parts added to the range are listed below:
