

Alternator DAN1328

DAN1328: Coverage

We are pleased to announce that part number DAN1328 (104211-8380) linked to OE part number 03L 903 024, currently available in our AM range, also covers the applications linked to OE part numbers 03L 903 023 & 03L 903 023 A

- > Originally covered VW TIGUAN 2.0 TDI engine with stop-start system.
- > Can also cover all VW Group stop-start vehicle applications installed with EA189 family 1.6-2.0 TDI engines.
- > Compact size High-Efficiency DENSO SC Alternator: Mounting is much easier than old alternator for installers.
- > Integrated LIN technology allowing coverage of vehicles featuring stop-start system with regenerative braking.
- > This single Part Number allows a full coverage of the start-stop applications for the range of vehicles listed in the application table. This represents a car parc coverage of approx 5,5 Million vehicles across EU.
